- Paddle Flail with 3 mm thickness for a fine and even cut on grass fields only.
- Fléau -palette, épaisseur 3 mm, pour une tonte uniforme sur la pelouse
- Bechermesser, 3 mm für Feinschnitt.

Facile millimetrica regolazione rullo.
Easy millimetrical roller adjustment.
Réglage millimétrique du rouleau arrière.
Einfachste, millimetergenaue. Höheneinstellung der Stützrolle.

Sicurezza anti ribaltamento.
Mower tilting prevention.
Dispositif de sécurité
(anti-renversement de la machine)
Gesichertes Floaten

Tripla sovrapposizione dei coltelli.
Flails overlapping.
Superposition des fléaux.
Überlappende Messer.

TRINCIABERBA per il trattore, **John Deere** Mod.: **F935-F1145-F1435-F1445-F1565-F1600** con possibilità di taglio mulching e/o scarica del manto erboso. Fornita di ruote frontali pivotanti con cuscinetti, precisa regolazione rullo posteriore, da usare su prati pubblici e sportivi anche in presenza di piccole potature o sterpaglie alte. Ruotino frontale per superare gli ostacoli.

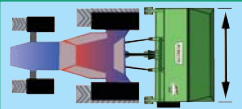

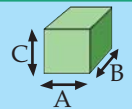

FLAIL MOWER for **John Deere** tractors Mod.: **F935-F1145-F1435-F1445-F1565-F1600** with mulching cut and verticut possibility on grass field. Supplied with front castor wheels on bearing rotation, accurate rear roller adjustment, to use on grass/sport/municipality fields, parks with possibility to cut small branches. Excellent performance on brushwood. Front wheel to prevent scalping.

TONDEUSE A FLEAUX FRONTALE pour tracteur **John Deere** Mod.: **F935-F1145-F1435-F1445-F1565-F1600**, avec possibilité de coupe mulching et verticoupe de la pelouse. Equipée de roues frontales pivotantes avec roulements, système de réglage précis du rouleau arrière. Conçue particulièrement pour l'emploi terrains de sport ou espaces verts publics. Bonne performance même pour le débroussaillage et en présence de petit branchage. Roue centrale anti-scalp pour le travail sur terrains irréguliers.

Schlegelmäher für - John Deere Schlepper Mod. **F935-F1145-F1435-F1445-F1565-F1600** mit Mulch - Schneidbalken, auch zum Verikutieren und Feinschnittmähen von Sport - u. Kommunalflächen. Ausgestattet mit höhenverstellbaren Fronträdern, 360° drehend, verhindern auch zu tiefes Arbeiten, sowie einfachster Höhenverstellung der Stützrolle ist dieses Gerät universell auf intensiven und extensiven Flächen zur optimalen Pflege einsetzbar, auch zur zerkleinerung Heckenschnitt.
