

AFT 100 Trencher for drainage, pipe- & cable installation

AFT

www.trenchers.co.uk

Up to ten times faster than an excavator with bucket

Digging widths are easy to change and it cuts exactly the width you need, from 125mm to 400mm

Can cope with hard and stony conditions

A trencher cuts the soil up very finely, which makes backfilling much faster and easier

For tractors from 90HP with creeper gearbox or hydrostatic transmission
